THURSDAY, DEC. 19—P. M.

The New-York, Lake Erie and Western Railroad's report to the State Engineer from May 31 to September 30 was published in the papers, but in a very summary manner. The report says that the amount of the funded debt cannot be stated accurately, but the floating debt given at \$400,000.

The charges other than for operating expenses are too numerous to be reported by telegraph, but to make clear the matter it is understood that a large proportion of the annual interest charge upon the old company is postponed by a funding of bonds, so that the new company reports a much smaller interest charge than the old company. The report of the old company shows an interest accrued for eight months over \$2,500,000, while the new company reports its accrued interest for the same period at \$1,800,000.

The chief characteristic of today's stock market was its listlessness. Prices opened firmly enough, as indicated by the figures, but there was neither excitement nor enthusiasm. With the exception of Michigan Central, the first fifteen minutes of the day were spent in the market for the stock of Michigan Central, 1,300 shares were traded in from 70 to 70 1/2, while Lake Shore, 14,100 shares sold from 6 1/2 to 6 3/4.

The market generally closed weak. The following were today's quotations for foreign and domestic coins and bullion. United States gold coins quoted in currency and all the others in gold.
